In the matter of

FM Table Of Allotments
Oolitic, Indiana
94.1 Mhz Channel 231 A

Petition For Reconsideration

In Docket 03-98 radio station WKKC 93.7 in Seymour, IN had their license modified to specify operation at Sellersburg, IN with a transmitter site in Louisville, KY. They also were downgraded to a class A. In a ruling in July of this year the FCC said they have no more protection at 93.7 in Seymour.

One week ago, I received a letter saying my petition had been thrown out. I believe it deserves reconsideration.

I, Bruce Quinn request that the Table Of Allocations be ammended to include 94.1 MHz in Oolitic, Indiana.

Oolitic has a population of 1,200 people and is located 70 miles from Indianapolis and Louisville.

The town is often called the Limestone Capitol of the World because of its plentiful supply of this building material. Many geat structures in Washington and New York are made from Oolitic limestone including the Empire State Building.

Oolitic, Indiana has never had a full service commercial radio station. This is their one and only chance..

I, Bruce Quinn intend to apply for, build, and operate this new FM Radio Station in Oolitic, Indiana

respectfully submitted,
Bruce Quinn
